There are powerful, timeless truths that, if widely embraced, would alter the course of human history and free humanity from the clutches of demonic globalists. That's why globalist forces go crazy trying to suppress what you're about to read here. Any truths they don't want you to know are labeled "disinformation," while the lies and propaganda pushed by the establishment are awarded the moniker of "facts."

In today's Brighteon Broadcast News episode (see below), I discuss these 14 powerful truths in great detail, revealing why anti-human forces are working so desperately to prevent the human race from learning these profound principles that can mean the difference between you being *enslaved* or *free*. This same episode also features an interview with *Rich Dad, Poor Dad* author Robert Kiyosaki who sounds off on the collapsing dollar and the economic lies of our fascist government.

14 timeless truths that can defeat the demonic globalists trying to exterminate humanity

1) God is real, there is a creative, intelligent force that transcends the cosmos and that has a purpose for your existence. If you don't realize that you were created with a purpose, then your life seems meaningless, and you are disconnected from the very force that brought you into existence.

2) God and Mother Nature have already created all the medicine you need, for free – every cure already exists, including cures for cancer, and they are deposited in the natural world around us, just waiting to be harvested and deployed for humanity's benefit. The entire purpose of the medical establishment (FDA, CDC, AMA, etc.) is to try to make you blind to the natural medicine that makes Big Pharma's toxic drugs obsolete.

3) Technologies for unlimited "free" energy already exist and have been withheld from humanity, just like ivermectin was withheld from humanity in order to maximize COVID casualties. Globalists know that if energy is abundant and affordable, humanity cannot be easily enslaved. So they work to suppress free energy technologies while tearing down the conventional energy infrastructure to create energy *scarcity*.

4) We are not the first advanced civilization on planet Earth, nor in our solar system. We will also not be the last. Some previous civilizations likely had areas of technology and spiritual understanding that vastly exceed our own.

5) The establishment in power is a satanic, child-sacrificing cult of pure evil that maintains its power through propaganda, censorship and money printing, while feeding off the blood of children.

outrageous lies. This causes many people to go along with the crowd rather than exercise their own rational discernment. For example, the entire "trans cult" is being pushed using social conformity / compliance techniques that try to convince people it's okay to mutilate the genitalia of innocent children.

7) Modern vaccines are designed to achieve [global depopulation](#) and nothing else. The entire vaccine narrative is a vicious lie to justify the ongoing injection of bioweapons into billions of humans. Convincing people to be injected with deadly weapons is easier for the globalists, compared to running a kinetic extermination campaign like what was run during the *Holocaust*.

8) Scarcity of resources is engineered (food, energy, medicine) to keep you enslaved and operating in a constant state of fear. There is no reason for any scarcity of resources on planet Earth, since food, sunlight, water, seeds, warmth and more are all abundant and even created by nature for free. Only through deliberate campaigns to create artificial scarcity can globalists convince people to be afraid and obedient.

9) The media constantly pushes hatred because HATE is the lowest vibration emotion that distracts the mind from higher thoughts, ambitions and achievements. The purpose of the media is to drive the population away from peace, harmony and achievement, delivering panic, destitution and violence so that governments have justification to assert more control over the lives of the citizens.

10) The food supply is deliberately poisoned to keep your brain in a state of confusion and mental illness. This is why human foods are laced with toxic pesticides, herbicides, GMOs, hormone disruptors and heavy metals. No animal species on planet Earth feeds its children poisons, but human institutions force this upon the masses to make sure no children is raised without being cognitively compromised through toxic exposure.

11) The higher the CO2 in the atmosphere, the more food is created for free, all over the world. Crops and trees love CO2. Terraforming is the attack on the atmosphere to achieve [global famine](#) by removing CO2 from the atmosphere in order to cause global famine and crop failures.

12) The monetary currency system is rigged to make sure your money is always stolen from you (and you can never get ahead) – Kiyosaki says the stock market is the financial version of "bread and circuses" people who will forever remain trapped in the rat race, never to get ahead. Only gold, silver and crypto have a future, as every fiat currency will collapse. If you hope to have assets remaining after the collapse of the dollar, hold your assets in self-custody. This means you have

14) Your mind is a transmitter of knowledge, and you are a reflection of the power of God (TheContagiousMind.com) The power of your voice + intention can alter the universe. Say it and you help bring it into reality. Your mind and voice can literally "program" the fabric of the cosmos. No one in mainstream culture tells you this because the establishment wants you to think you are powerless.

Hear a more detailed explanation of all this in today's Brighteon Broadcast News, posting at the HR Report channel on Brighteon.com:

cesium radioactive isotope elimination invention, a multiple award winner for outstanding journalism, a science news publisher and influential commentator on topics ranging from science and medicine to culture and politics.

Mike Adams also serves as the lab science director of an internationally accredited (ISO 17025) analytical laboratory known as [CWC Labs](#). There, he was awarded a [Certificate of Excellence](#) for achieving extremely high accuracy in the analysis of toxic elements in unknown water samples using ICP-MS instrumentation.

In his laboratory research, Adams has made numerous food safety breakthroughs such as revealing rice protein products imported from Asia to be [contaminated with toxic heavy metals like lead, cadmium and tungsten](#). Adams was the first food science researcher to document [high levels of tungsten in superfoods](#). He also discovered [over 11 ppm lead in imported mangosteen powder](#), and led an [industry-wide voluntary agreement](#) to limit heavy metals in rice protein products.

Adams has also helped [defend the rights of home gardeners](#) and protect the [medical freedom rights of parents](#). Adams is widely recognized to have made a remarkable global impact on issues like GMOs, vaccines, nutrition therapies, human consciousness.

You got majority of the things right. Good, good. But you're still blinding yourself with a few things. Some truths are actually... boring, and some others are actually bizarre. But that doesn't really matter.
